Dear Mr. Ashcroft:

As a supporter of Microsoft, I write you with concern regarding the recent settlement. The terms of this settlement were part of a well thought out process, which was monitored throughout the entire time. It seems impossible that there could be any more room for scrutiny. Let us let these terms speak for themselves and help get our technology industry back to business.

As our economy continues to take a dip, we must do all we can to support our technology industry. Since it acts as a large part of our economy, we need to help solidify its place in the global market. The terms of this agreement help to create a more unified IT sector, which can only help us to work together to keep our place in this global market. By delaying the process, we only open the doors for our competitors, while we focus on litigation.

Please help to support this settlement by stopping any further action against the agreement. Help us to help our IT sector get back to business. I thank you for your support.

Sincerely,

Keith Duemling
